

Monaco: technology on your skin

Soft and silky, **Monaco** perfectly combines comfort and elegance and ensures excellent fit. It is a two-way stretch fabric that follows the body's movements to perfection, moulds and shapes the figure and offers a "second skin" effect that makes it seductive and pleasant on contact with the body.

Designed for an even more elegant, sensual woman, **Monaco** has a very refined, opaque appearance. Available in 17 shades, from the most basic to a more trendy range of colours. It is a versatile fabric with numerous applications, but its softness and ability to delicately caress the body make it a natural for the lingerie sector.

With **Monaco**, style never neglects the technical aspects: this fabric ensures excellent protection against UV rays (UPF 50+) and excellent resistance to pilling and abrasions.

Composition: 88% Polyamide Micro – 12% Elastane

Weight: 140 g/m²
