

CAPRI E RIVIERA: GLAMOUR AND FEMININITY UNDER THE SUN

The new fashion fabric by Carvico premières at Interfilière 2011.

Soft and trendy, **Capri** is the ideal partner for the most sophisticated, fashion-conscious women who love travelling and feeling sexy, no matter what ...

At the seaside or at the swimming pool, **Capri** will always turn your holidays in dreamlike, trendy adventures!

Capri is not only glamorous: the Xtra Life LYCRA® makes it chlorine proof, sun creams and oil resistant and enhances its shape retention power.

Besides, it is also highly UV protective (UPF 50+) and extremely comfortable while perfectly sculpting and shaping your silhouette without making you feel constrained.

Capri joins the family of fabrics in micro-polyamide produced by Carvico SpA and is presented at the fair along with **Riviera** with a totally reinvented color card featuring several, new, cool nuances aimed at creating unexpected, magic atmospheres for summer 2013.

What we are offering is a refined and exciting color range, matching pastel tones with more saturated and vivid ones to create new, amazing color marriages.

Capri & Riviera: luxury lands at Interfilière...

RIVIERA
